

OS FOUNDATION PRODUCT / HIGHER EDUCATION

Campus

A connected institution.
 A clearer student journey.

Every department. A shared perspective.

Campus is the OS foundation for higher education, connecting student services, academic administration, departmental work, and campus operations. Bring advising appointments, program activity, and service requests together across the institution.

Illustrative interface. Fictional sample data.

Screens and workflows are shaped around your organization.

CONNECTED CAPABILITIES

Keep the next step connected.

01 Student service requests

Connect inquiries and service requests around the student experience and the teams responsible for responding.

02 Advising & appointments

Coordinate advising handoffs and appointments with clear responsibilities across the student-service journey.

03 Academic administration

Bring program context, academic calendars, and administrative responsibilities into a shared institutional view.

04 Faculty & departments

Connect faculty workflows and departmental work so responsibilities remain visible across schools and locations.

05 Facilities & technology

Coordinate campus facilities and technology support with the people, locations, and services they support.

06 Purchasing & resources

Bring institutional resources and purchasing into a connected operating flow across departments and campus teams.

WHO IT'S FOR

Built for the people connecting campus life.

For colleges, universities, and higher-education organizations coordinating services across schools, departments, and locations. Designed for student services, advising, academic administrators, faculty, and campus operations teams.

Let's talk about Campus.

Define the workflows, integrations, and rollout that fit your organization.
