

OS FOUNDATION PRODUCT / RETAIL

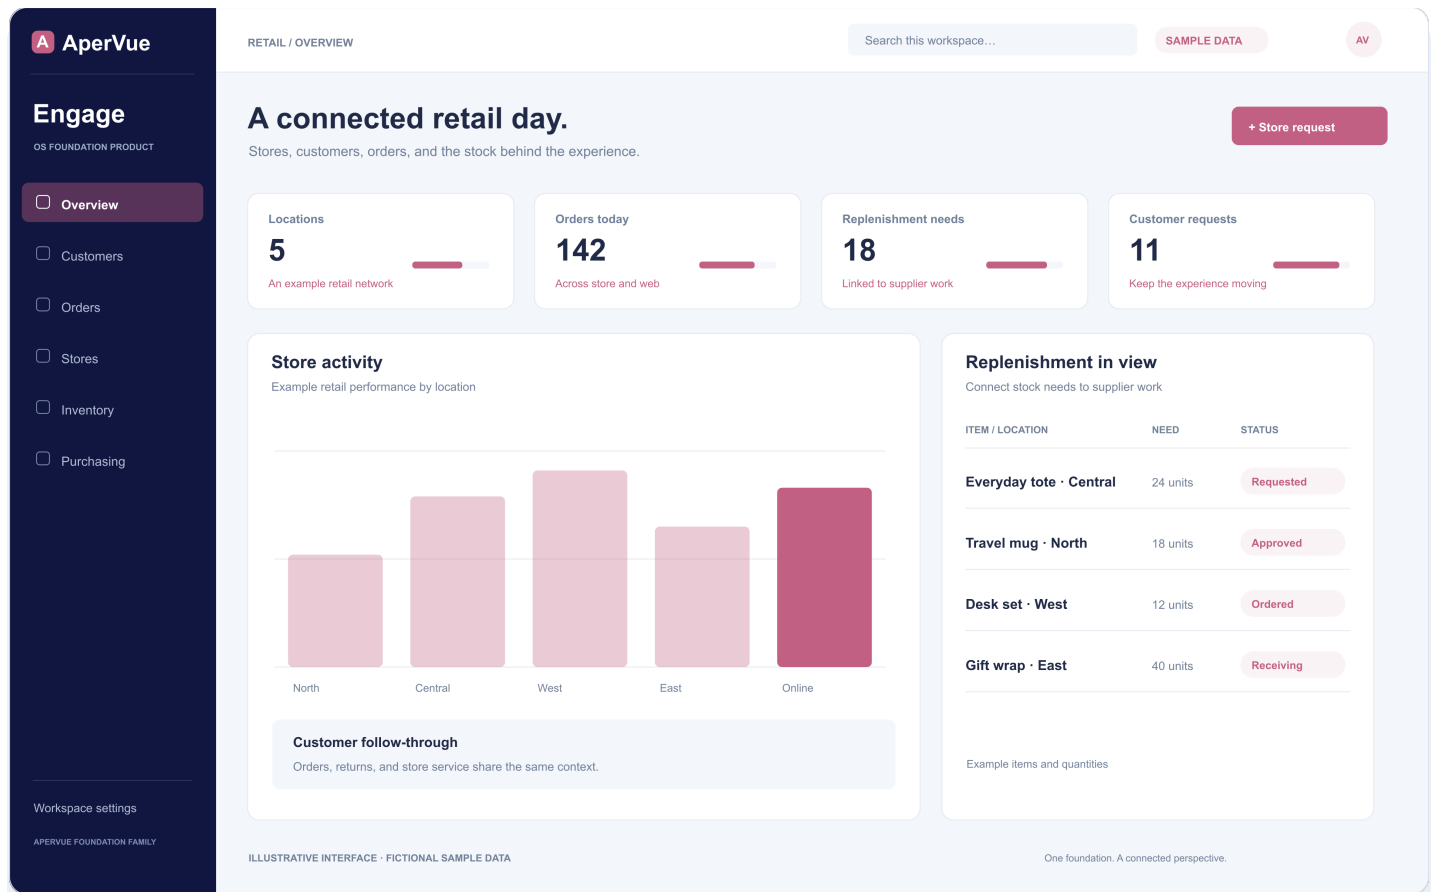

Engage

Every store.

Every customer connection.

The retail day, connected.

Engage is the OS foundation for retail, connecting customer relationships, store operations, inventory context, purchasing, and order follow-through. Bring store activity, order progress, and replenishment needs together across locations.

Illustrative interface. Fictional sample data.

Screens and workflows are shaped around your organization.

CONNECTED CAPABILITIES

Keep the next step connected.

01 Customers & orders

Bring customer context, order activity, service requests, and digital experiences into a connected retail view.

02 Store team operations

Coordinate daily store tasks, location responsibilities, and operational handoffs across teams and locations.

03 Order follow-through

Connect order progress, fulfillment, and store service to the customer relationship and the next visit.

04 Stock visibility

Bring inventory context and stock visibility into the daily decisions and operating priorities of retail teams.

05 Purchasing & suppliers

Connect purchasing and supplier context to store needs, product availability, and retail operating priorities.

06 Receiving & replenishment

Coordinate replenishment requests and receiving workflows with the stock needs of stores and locations.

WHO IT'S FOR

Built for the teams behind every store.

For retail organizations coordinating customer experiences, store teams, products, and suppliers across channels and locations. Designed for retail leaders, store operations, customer service, inventory, purchasing, and receiving teams.

Let's talk about Engage.

Define the workflows, integrations, and rollout that fit your organization.
